Experience

Cybersecurity Club,ADIT — July 2023 – Present
Web Developer — *Anand,Gujarat*

- Crafted an engaging and functional website for the club, emphasizing user-friendly design and seamless navigation
- Key contributions include developing an intuitive event showcase, personalized member profiles, and a clear workshop schedule.
- This experience strengthened my web development skills in a dynamic club setting.

Projects

Personal Portfolio Website | *Next.js, TailwindCSS, React, Framer Motion* — Demo | Code

- Developed a dynamic and visually engaging personal portfolio website using Next.js and TailwindCSS to showcase my projects, skills, and achievements.
- Integrated animations and interactive components using Framer Motion and Radix UI for enhanced user engagement.
- Used React Hook Form and Zod for efficient form validation, enabling streamlined communication via a contact form powered by Formspree.
- Optimized performance and implemented a light/dark theme toggle using the Next.js Themes package for improved accessibility and customization.

Digital Business Website | *Next.js (React framework), HTML, CSS, JAVASCRIPT* — Demo | Code

- Designed and developed a user-friendly and interactive digital business website using Next.js (React framework), HTML, and CSS. (Highlights front-end focus and technologies used).
- Features include an intuitive event showcase, member profiles for tailored recommendations, and a clear workshop schedule.
- Project resulted in increased user engagement by 7%.

Employee Management System | *Python,MySql* — Demo | Code

- Created an Employee Management System using Python and MySQL for streamlined data handling and backend efficiency.
- Implemented features for task assignment, attendance tracking, and role-based access control. Improved administrative processes and showcased expertise in Python programming and MySQL database management.

Achievements

- ISTE National Ideathon Winner 2025
- Odoo Hackathon Finalist
- Code Unnati Foundation Course
- Participated in AICTE IdeaLab Tech Fest 2025
